

BHAVYA RAJWANSHI

Bengaluru, India | +91-8920514779 | bhavyarajwanshi99@gmail.com | [LinkedIn](#)

Summary

DevOps & Observability Engineer | GCP Certified | 2.5 Years at Bosch Specialized in enterprise monitoring (Datadog, Grafana, Icinga), Kubernetes deployments, and FinOps-driven cloud optimization. Delivered measurable outcomes — 35% MTTR reduction, 40% workload automation, 15% observability cost savings — and published researcher in blockchain systems.

SKILLS

- **Cloud & Orchestration:** Google Cloud (GCP), AWS, Docker, Kubernetes, Helm, Rancher Desktop (k3s)
- **Observability & FinOps:** Datadog, Icinga, Grafana, New Relic, PowerBI
- **Infrastructure & CI/CD:** Terraform, GitHub, Linux/Unix
- **Languages & Scripting:** C++, Javascript, Bash

WORK EXPERIENCE

Bosch Global Software Technology

Oct 2023 - Present

Associate Software Engineer(DevOps & Observability)

- Engineered secure API integrations between Icinga and multi-cloud environments (managing IAM credentials for AWS and authentication tokens for Azure VMs), ensuring seamless telemetry collection across hybrid infrastructure.
- Developed and maintained robust backend automation scripts using **Bash** and **JavaScript** (Node.js) to interact with REST APIs, eliminating manual server configuration and **reducing team workload by 40%**.
- Supported the execution of a FinOps chargeback model by tracking metric/log ingestion and billing internal teams based on exact usage, **identifying unused data pipelines to reduce overall cloud observability spend by ~15%**.
- Collaborated on the enterprise-wide rollout of **Datadog**, acting as a core support engineer for the internal "Datadog-as-a-Service" platform; managed agents across distributed **Linux/Unix** environments and resolved complex telemetry configuration issues for internal teams.
- Architected integrations within the observability stack (**Grafana/Icinga/New Relic**), managing underlying server health and cutting **Mean Time to Resolution (MTTR) by 35%** through proactive alerting.

PROJECTS

Self-Service Monitoring Automation & Reporting Platform

2026 - Present

Bosch Global Software Technologies

Bangalore, India

- **Engineered a centralized aggregator dashboard** using Node.js, integrating directly with the Icinga REST API to fetch, process, and visualize infrastructure telemetry across multiple environments.
- **Automated compliance and SLA reporting** by programming backend server scripts to gather raw system data and automatically generate Weekly Status Reports (WSR), eliminating manual data entry.
- **Streamlined operational audits for the IAOC** (Infrastructure & Application Operations Center) team by providing a unified, real-time data view, drastically reducing the time required to compile audit evidence.

Kubernetes-Based Application Deployment & Monitoring Platform

Mar 2026 - Present

- Containerized a full-stack application (**Mealie**) by authoring custom **Dockerfiles**, optimizing image layers for faster builds, and establishing a robust local testing sandbox using **Rancher Desktop** (k3s).
- **Automated the delivery pipeline** by engineering a GitHub Actions CI/CD workflow to trigger automated container builds and image pushes upon code commits, eliminating manual deployment steps.
- **Authored core Kubernetes YAML manifests** (Deployments, Services) to provision the application, ensuring proper network routing and continuous availability within the cluster.
- Managed observability and cluster state by deploying a full monitoring stack via Helm, debugging pod failures, and analyzing resource bottlenecks directly from the terminal using **k9s** and **kubectrl**.

CERTIFICATES

- **Generative AI Leader Certification:** https://www.credly.com/badges/12ebd4ba-b721-4ddb-ad85-c2876e4baec4/linked_in_profile
- **Google Associate Cloud Engineer:** https://www.credly.com/badges/e084b047-79f6-4743-a2e4-28c29d19bb66/linked_in_profile
- **Google Cloud Provider - Digital Leader:** https://www.credly.com/badges/23e1be38-33de-44e5-8b5d-f54a58c8954/linked_in?t=sfc516

PUBLICATIONS

- **Crypto Bank: Cryptocurrency Wallet Based on Blockchain..***Published in the Recent Trends in Image Processing and Pattern Recognition journal by Springer, January 2024.* <https://www.springerprofessional.de/en/crypto-bank-cryptocurrency-wallet-based-on-blockchain/26673536>

EDUCATION

G.L Bajaj Institute of Technology and Management

Aug 2019 - Jul 2023

B.Tech, IT, INFORMATION TECHNOLOGY

- **GPA:** 8.0
- **Coursework:** Database Management System (DBMS), Operating System, Data Structures and Algorithms

ACHIEVEMENTS

- **Bravo Award, Bosch Global Software Technologies (Jun 2025):** Awarded for building a Power BI dashboard to automate monthly team reporting and enhancing monitoring visibility for IAOC. Recognized by leadership for initiative and team support.
- **Ace Performer, Bosch Global Software Technologies (Dec 2024):** Recognized for delivering automated monitoring scripts that reduced manual workload by 40%.
- **DEI Ambassador, Bosch Global Software Technologies:** Recognized for promoting workplace inclusivity and actively contributing to organizational diversity initiatives.
- **Bravo Award (Aug 2024):** For rapid technical upskilling and GCP certification.
